

2020 - 2021 CALL IN/SENDING HOME SICK PROCEDURES

= Health screen completed, no symptoms present, student may proceed to school.

= Health screen completed, student is experiencing one or more "at risk for COVID" symptoms. **DO NOT** proceed to school, choose from the following options listed below:

AT RISK SYMPTOMS

(In the past 24 hours)

- Fever greater than 100.4
- Cough
- Loss of Taste or Smell
- Sore Throat
- Unusual Shortness of Breath
- Unusual Fatigue
- Congestion or runny nose
- Gastrointestinal (GI) Symptoms (nausea, vomiting, diarrhea)

(Recently)

- Have you recently been in close contact with anyone who has exhibited any COVID-19 symptoms?
- Have you recently been in contact with anyone who has tested positive for COVID-19?
- Have you recently traveled to a restricted area that is under a Level 2, 3, or 4 Travel Advisory according to the U.S. State Department?

RED SCREEN OPTIONS

- Visit Pediatrician and obtain a Dr.'s note to submit to school stating the child symptoms are not COVID related and can safely return to school.
- OR-**
- Obtain a negative (non-rapid)* COVID test result and submit the verification to school. Child can return to school the next day after negative result received.

*A negative rapid COVID test will still result in staying out of school for the full 10 days (due to a higher than acceptable rate of false negatives). You may still obtain a Dr. note stating they are safe to return to school.

-OR-

- Stay home for 10 days past on set of symptoms. May return after 10 days as long as symptoms are gone.

FAQs:

If I call my child in sick in morning with just one or two mild symptoms can we come back the next day (or in a couple days) as long as symptoms are gone?:

NO- students that go home sick from school or get called in sick from home must immediately follow through with one of the "at-risk" red screen options listed above before they can return to school.

Can siblings of the sick child attend school as long as they have no symptoms:

YES - as long as no symptoms are present and no one in home has tested positive or had known exposure to COVID. Child will be sent home if they develop any symptoms during the school day.
